UI Redesign Summary

Color Theme

Old: Black + Yellow (#FFD700) + Pink (#FF69B4) + Sky Blue (#87CEEB)
New: Deep Space Dark (#0a0a1a, #0d1117) + Violet (#8b5cf6) + Cyan (#06b6d4) + Emerald (#10b981)

Typography

Old: Orbitron + Poppins (heavy, gaming feel)
New: Space Grotesk + Inter + JetBrains Mono (clean, professional, tech-forward)

Design System

Old: Heavy gradients, thick borders, excessive animations (bounce, shake, rotate)
New: Glassmorphism with backdrop-filter blur, subtle borders, minimal smooth animations

Components

Old: feature-card grid with heavy shadows, bouncing icons
New: Feature pills (compact badges), glass-card containers, clean stat-cards

Header

Old: Giant 4.5rem Orbitron title with glowing text-shadow, 6rem bouncing emoji
New: Clean hero with gradient text, badge, subtle subtitle, feature pills

Sections

Old: Numbered but visually heavy with thick gold borders
New: Flex layout with gradient numbers, clean info block, subtle accent border

Buttons

Old: Gold/pink gradients with 50px border-radius, heavy shadows
New: Violet/cyan gradients with 12px radius, clean hover lift effect

Sidebar

Old: Same heavy gold theme
New: Minimal dark with sidebar-card components, clean typography

Footer

Old: Heavy multi-color border with gold accents
New: Clean glassmorphism card with muted stats

Animations

Old: 8+ animations (bounce-rotate, shake, pulse-glow, scan lines)
New: 3 subtle animations (heroFade, sectionSlide, statPop)

Accessibility

Old: Low contrast in some areas, distracting motion
New: Better contrast ratios, reduced motion, cleaner hierarchy
